WHY YOU NEED WATER TREATMENT?

► PIPELINES FOR TAP WATER ARE NOT CLEAN.

Arsenic in tap water causes discomfort in the oesophagus and lungs.

Pesticides and insecticides in tap water cause many diseases from cardiovascular diseases to birth problems.

WHY YOU NEED WATER TREATMENT?

- ▶ THE COST OF PLASTIC OR CARBOY BOTTLES IS NOT SUSTAINABLE.

Daily Water Consumption: 8 liters

Daily Cost: 8 liters x £0.50 = £4

Yearly Cost: £4.00 x 365 days = **£1,460**

5 Year Cost: £1,460 x 5 years = **£7,300**

SO A FAMILY OF FOUR WOULD SPEND APPROXIMATELY **£7,300 OVER FIVE YEARS** BY DRINKING BOTTLED WATER.

WHY YOU NEED WATER TREATMENT?

► PLASTIC FREE LIVING

Reducing plastic helps protect our planet.

Less plastic means less waste in oceans and landfills.

Choosing reusable items cuts down on single-use plastics.

Small steps today lead to a healthier world tomorrow!

BETTER TASTE, SAFER FOOD

- ▶ Cook with purified water for fresher, more flavorful meals.
- ▶ Enjoy smoother, tastier tea and coffee when made with pure water.
- ▶ Use purified water to safely prepare baby formula, free from harmful contaminants.

THE TEAM

At MDJ Water Treatment, we recognise the important role water plays in our lives. We have experienced how access to living and healthy water can make a huge difference to your quality of life.

We want you to experience it too.

With this awareness, we have been carrying out intensive R&D work on water treatment technologies for the last 10 years. In this process, we aimed to develop the most innovative and effective solutions and to offer you the most vibrant and mineralised form of water.

Each of our products is designed to **maximise the benefits of water.**

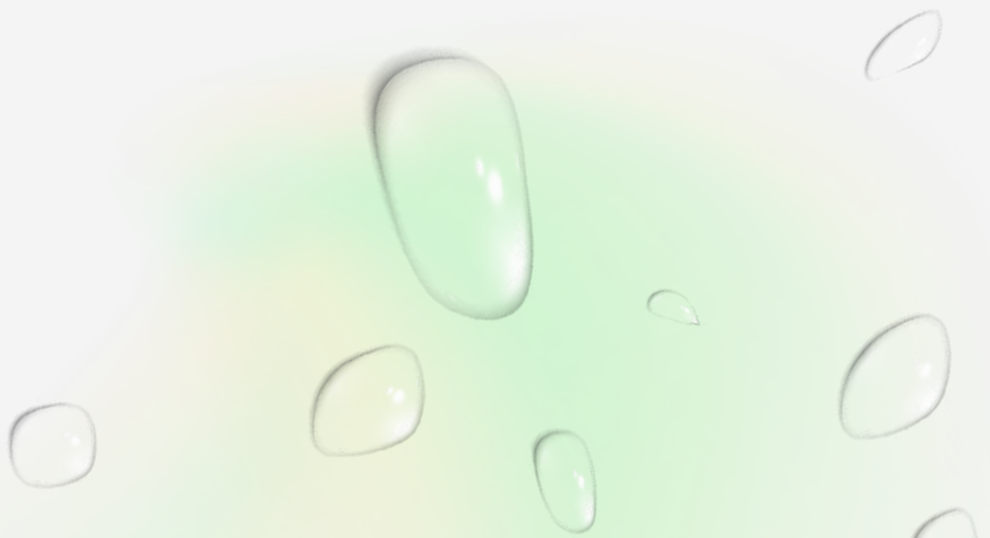

As MDJ Water Treatment, we are determined to add beauty to your life and health with the power of water.

SHOULD I USE?

WE MAKE ANTIOXIDANT, HIGH PH & ALKALINE WATER.

When you consume tap water, you take in impurities, chemicals and pollutants that can have negative effects on your body over time. Unfortunately, the same thing happens with plastic bottles and carboys.

IN THIS ISSUE

Drinking the right water means achieving the right physiology.

Water covers 70% of our body.

This is why it is very important that the water we drink is antioxidant and alkaline. Water purifier, ensures that the water is free from harmful substances. With purified water, you will understand the difference in the taste of the water you drink over time, but also realise that it causes you to start the day more energetic and vigorous.

WHAT IS ANTI- OXIDANT?

Did you know that people who constantly consume oxidant foods age **30 years earlier?**

Each of us *has free radicals* in our body. These are unstable molecules that form in the body and can damage cells. These molecules can damage cells and DNA, accelerating the ageing process and increasing the risk of certain diseases.

www.mdjtreatment.co.uk

Why Should You Prefer Antioxidant Rich Water?

It is a fact that water is our source of life.

However, did you know that water can do much more than just quench your thirst? Today, it is even more important to pay attention to the quality of the water we drink to ***support a healthy lifestyle.***

YOU WAKE UP TIRED IN THE MORNING?

Modern lifestyle causes our body to become acidic with factors such as stress, processed foods and environmental pollutants. High pH, alkaline water can balance this acidic state and help keep your body at an optimal level.

**KEEP YOUR
BODY IN
BALANCE WITH
HIGH PH WATER**

MINERAL RICH

MDJ Water Filter adds natural minerals to water. Minerals such as magnesium, calcium and potassium not only maintain bone health, but also support heart health, muscle function and overall energy levels.

POTASSIUM

MAGNESIUM

CALCIUM

WHICH DISEASES ARE GOOD FOR?

Antioxidants are substances that protect our cells by fighting free radicals in our body. Free radicals are harmful molecules that accelerate the aging process and can lead to serious health problems such as cancer and heart disease.

CANCER ✗

By preventing cellular damage caused by free radicals, it can prevent the development of cancer.

HEART DISEASES ✗

Antioxidants can reduce the risk of heart disease by protecting the health of the vessels.

DIABETES ✗

It can help regulate blood sugar levels, which can reduce the risk of diabetes or improve the condition of diabetic patients.

HOW ALKALINE WATER WORKS IN THE BODY

FOR BETTER HEALTH

Alkaline water helps maintain the body's pH balance by neutralizing excess acidity. It supports better hydration by being absorbed more efficiently, promoting optimal cell function.

Its strong antioxidant properties neutralize free radicals, protecting cells from damage. Additionally, alkaline water aids in improving digestion and enhancing overall health and energy levels.

YOUR DAILY BOOST

ANTI-AGING EFFECT

Regular consumption of alkaline water can balance the body's pH level, which can reduce the signs of aging. It can help the skin look smoother and firmer.

DETOXIFICATION

Assists in flushing out toxins more effectively

BALANCES PH LEVELS

Helps neutralize acid in the body, promoting overall wellness.

ENHANCED HYDRATION

Alkaline water is absorbed more quickly, keeping you hydrated longer.
